

# Automated AI Supplier Onboarding

Automated Supplier Onboarding for SAP Ariba  
Streamline registration, validate documents, and accelerate approvals with intelligent automation.

## Challenges

Manual transcription errors lead to inaccurate data

Document verification is slow and inefficient

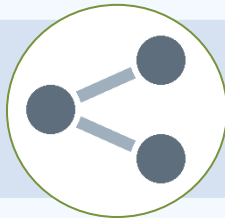

Supplier activation is frequently delayed

Operational workload and costs increase significantly

## Automated Supplier Onboarding for SAP Ariba

Automated Supplier Onboarding for SAP Ariba integrates intelligent OCR and validation to streamline registration and document checks. It removes manual data entry, ensures accuracy of key documents, and accelerates approval workflows. By automating extraction, validation, and sync to Ariba, organizations cut turnaround time, reduce errors, and stay compliant.

**Supplier Submission**  
Secure upload of trade and bank documents

**Automated Extraction & Validation**  
OCR checks and verifies document accuracy

**Instant Synchronization**  
Updates supplier records in SAP Ariba instantly
